Novelty DARWIN TULIPS

The Novelty Darwin Tulips offered below are among the most outstanding varieties of latest introduction. We aim to list only those varieties that are distinctly an improvement over the older types.

As a beautiful addition to your garden, or for gaining highest awards at any spring shows, they are highly recommended.

	Each	Doz.
AMERICAN FLAG. 26 inches. Dark red with broad white lines and blue base. So named because the three colors resemble the American Flag. A real novelty	\$0.50	\$5.00
BLUE RIBBON. 32 inches. A tall and erect Tulip of great beauty. Bluish purple, with a blue center. The flowers are carried on a strong stem. The finest and most perfect purple Tulip in existence70	7.00
GLORIOSA. 31 inches. A beautiful bluish purple, changing to a lighter edge. An outstandingly tall and attractive variety for the garden35	3.50
GOLDEN AGE. 26 inches. Bright golden yellow faintly overlaid with orange, strong grower and beautifully shaped; among the many new yellow Darwins of recent introduction, this is considered the finest..	.40	4.00
HELEN MADISON. 31 inches. A tall, luminous rose. A beautiful new novelty, and a valuable addition to the rose-colored Darwins75	7.50
HORACE VERNOT. 30 inches. A beautiful rose with a lighter border. An unusually sturdy and attractive variety, one of the finest pinks in existence. Still very scarce	1.00	10.00
MADAME BUTTERFLY. 29 inches. An outstanding novelty, the likes of which are but seldom seen. Strong, with a magnificent egg-shaped flower, making a beautifully proportioned plant. The color is purple changing to silvery lavender and gray. A sensation at our 1937 display.25	2.25
PRIDE OF ZWANENBURG. 28 inches. A glorious salmon-rose Tulip with a narrow edge of blush-rose at margin. Except for the paler margin it resembles a glorified Clara Butt in color, producing a wonderful, tall salmon-pink, for which every amateur has been looking for years.90	9.00
RIVIERA. 28 inches. A large, superb flower of soft lilac. A beautiful new novelty in this color class.	.45	4.50
WHITE GIANT. 30 inches. A lovely white Darwin of correct Darwin shape, with a strong, straight and tall stem. Without question one of the very best of white Tulips.25	2.50
 \$16.50 per 100		

The Bishop

Giant DARWINS

Darwin Tulips are all cup-shaped flowers carried on tall stiff stems, and range in color from black to white, crimson, and scarlet, to the softest pink, purple-lilac, yellow, and indescribable intermediate blendings and pastel shades, all producing a glossy effect on the outside of the flower. All Darwin Tulips have very long stems and are, therefore, highly recommended for garden decorations either in beds, groups, or perennial borders. Planting a Tulip garden is made easy for the fact that you may count surely upon the flower blooming as planned. The color, height, and flowering season are all so well established that it is a pleasure to plan a color effect, and to see it develop into life in the spring, just as imagined during the previous fall.

The number after the variety indicates the height at blooming time.

These Tulips are identical in shape and form to the Darwin type, except their coloring. The gloss, which is on the outside of the Darwin type, is on the inside of the Breeders, and the outside of the Breeders, in many cases, is covered with a slight dew, as on Concord grapes. Every lover of rich pastel shades cannot fail to appreciate their rich and artistic blendings. Colors like bronze, terra cotta, purple, old gold, brown, buff, and maroon are found among them. Many of these varieties are sweet scented. The varieties listed are considered the best.

Graceful COTTAGE TULIPS

MAY-FLOWERING

The Cottage Tulips, like the Darwins, flower in May. The difference between the Cottage Tulips and the Darwins is in the shape of the blossoms. While Darwin Tulips are mostly cup-shaped, the flower of the Cottage Tulip is, in the majority of cases, long and oval, and in the newer varieties of Cottage Tulips there is a refined grace and beauty which is way ahead of the common types. Many varieties also have reflexed petals. The Cottage type, as a class, is especially rich in the yellow shades, although all imaginable colors are represented, such as pink, yellow, orange, salmon, fawn, amber and old rose. They are ideally suited for outdoor planting and cutting.

New TRIUMPH TULIPS - Single and Double

SINGLE VARIETIES

This new race, which blooms about 8 days earlier than the Darwin type, is becoming better known every year, and during our annual Tulip show more and more people are becoming interested in it. The average height is shorter than the Darwins but they are of extremely sturdy growth, and therefore are excellent for bedding purposes. The varieties we have starred are among the finest Tulips we have ever seen, regardless of type or race.

DOUBLE VARIETIES

(Peony-flowering type)

These double varieties are extremely showy, with flowers as large as Peonies, and come in an extraordinary range of colors. They have created a remarkable interest, and in the past nearly all the available supply has been bought by our "Tulip Time" visitors, who were able to see them in bloom. As real novelties we want to recommend them for exhibition or show purposes. Being of very latest introduction, quantity of bulbs is limited, and early orders are more apt to insure delivery.

Novelty PARROT TULIPS

Here is a complete list of the most outstanding novelties in Parrot Tulips. These new Parrots, in contrast to the old type, all have heavy firm stems to keep the flowers erect, and are a valuable addition to any garden. These new types, strange to say, have all sported from the more popular varieties long known to the flower lover. Most everyone has admired Parrot Tulip Fantasy, which variety is by far the best known of this new type, and which has sported from the well-known Darwin Tulip, Clara Butt. They are so entirely different from all the other flowers that they provoke the startled admiration of all who see them.

Blue Parrot. 26 inches.

A glorious flower of bright violet shading to steel blue. As blossom opens it gradually changes to a most pleasing blue; very large flower with strong stem. Sport and color of Darwin Tulip, Bleu Aimable. Highly recommended \$9.50

Discovery. 26 inches. A beautiful rose Parrot; large flower of outstanding quality, of very sturdy and strong habit. Sport and color of the well-known Darwin Tulip, Princess Elizabeth 5.00

Eleanora. 18 inches. A crimson-purple shaded violet; extremely large flower with heavy petals and a strong and stiff stem of medium height. Very fine. Sport and color of Single Early Tulip, Eleanora \$0.65 \$6.50

Gadelan. 22 inches. Violet and mauve with purple shadings, center white; a beautiful variety of gigantic size and excellent substance. Sport and color of Parrot Tulip, Sensation. Highly recommended 2.50

Lady Derby. 28 inches. Lilac with lighter edge, center white edged blue; a delicate color and of beautiful form; very sturdy and extra large flower. Sport and color of Darwin Tulip, Circe \$22.00 per 100. 30 3.00

Opal Queen. 26 inches. A very beautiful pearl-blue Parrot of remarkable size carried on a strong stem. Sport and color of Darwin Tulip, Glory of Walworth. Highly recommended 3.75 37.50

Red Champion. 24 inches. Huge flower of bright crimson with slight shading of rosy red; flowers are carried on strong and stiff stem; still very scarce but will undoubtedly become the most beautiful of all the Parrot Tulips. Sport and color of Darwin Tulip, Bartigon 13.50

SENSATION. 22 inches. The variegated form of Parrot Tulip, Gadelan. \$2.50 each.

THERESE. 29 inches. Brilliant scarlet, inside glittering scarlet of a lighter shade; white center bordered blue; produces a tremendously large flower. In our estimation the most outstanding of the new Parrot Tulips in the red shade. Sport and color of Darwin Tulip, Farncombe Sanders. Highly recommended. \$2.25 each; \$22.50 per doz.

FANTASY. 20 inches. Beautiful salmon-pink with a much darker interior; outside marked with emerald-green. This variety has made a remarkable hit. Sport and color of Darwin Tulip, Clara Butt. 95c per doz., \$7.50 per 100.

Rembrandt TULIPS

Rembrandt Tulips are striped and feathered Darwin Tulips, with stripes or flakes of white, lavender, red, yellow, or other colors as their colors. They blend in perfect harmony at all times. We offer them in a mixture only. They are especially nice when used for cut flowers.

A RARE BARGAIN IN MAY-FLOWERING TULIPS

Annual Street Scrubbing in Preparation for Holland's Tulip Festival

These bulbs are of special home garden grade, 10 to 12 cm., all fine named varieties of flowering size for outdoor and mass planting. These are the same size bulbs of which we have supplied millions for the City of Holland, Michigan. We do not recommend this size for forcing and they are smaller than the bulbs listed on other pages of this catalog. We recommend them as a real bargain, and we can supply them in the following varieties:

50 flowering size bulbs, 5 each of 10 varieties—	\$ 2.00
100 flowering size bulbs, 10 each of 10 varieties—	3.75
250 flowering size bulbs, 25 each of 10 varieties—	8.50

DAFFODILS

CROESUS. (Incomparabilis). Perianth light canary-yellow, opening flat with broad, fluted cup of rich orange to base; free flowering and desirable in every way. **\$1.90 per doz.; \$13.50 per 100.**

FIRETAIL. (Barri). A new variety of importance, broad petalled, creamy white perianth and large orange cup with scarlet-orange frill. **45c each; \$4.50 per doz.**

GLORIOUS. (Poetaz or bunch-flowering). Tall flower, delightfully informal in habit, pure white round perianth with brilliant orange-scarlet cup. **75c each; \$7.50 per doz.**

JOHN EVELYN. (Incomparabilis). Deservedly an international favorite, and an outstanding variety among this class. Opening flat, pure white perianth measuring 4 to 5 inches across, with a flat lemon-yellow cup 2 inches in diameter. The cup is densely frilled and fluted or shirred to the base, good neck, strong grower and free flowering. One of the finest Daffodils in this class at the present, and for years to come. **\$2.90 per doz.; \$21.00 per 100.**

PAPER-WHITE NARCISSI

Suitable for indoor growing in pots, gravel, sand or fiber. Can be had in bloom from Christmas until Easter. Plant different lots every 2 weeks from October 1st until March 1st. Will give you an abundance of beautiful flowers during the winter. Not suitable for outdoor planting except south of the Carolinas. We offer only Jumbo or Exhibition size bulbs. Price: 65c per doz.; \$4.00 per 100.

GOLDEN YELLOW PAPER-WHITE NARCISSI

Soleil d'Or resembles the Paper-White Narcissus in habit, but is of an exquisite deep yellow color, with an orange-yellow cup.

Grow in shallow bowls of water with enough pebbles, stones or soil to prevent them from toppling over when in bloom. Will bloom from 4 to 6 weeks after planting. Exhibition size bulbs only. **\$2.00 per doz.; \$15.00 per 100.**

In order to have a beautiful bulb garden, Narcissi should be planted very freely. They thrive in practically any climate in the United States. They are not only excellent for outdoors, but millions are used every year for forcing indoors. Their graceful form, beautifully shaped trumpets and cups, and the long straight stems have made them favorites for cut flower purposes with every American gardener.

In order to understand the different types coming under the Daffodil classification, the following explanation should be read.

By the term Perianth is meant the outer petals of the flower. The trumpet is the long cup or trumpet-shaped center. The crown or Cup is the short or flat center.

The term Trumpet Daffodils means that the trumpet is as long, or longer than the perianth segments, regardless whether the color is yellow, lemon or white.

The term Incomparabilis means that the cup or crown measures from one-third to nearly the length of the perianth segments.

The term Leedsi means that the perianth is white, the cup is short, either white, citron or sometimes pink or apricot.

The term Barri means that the cup or crown measures less than one-third of the length of the perianth segments.

The term Jonquil means that the foliage is very long and narrow, or round, in other words, rush-like; the flowers buttercup yellow, small, but very fragrant.

The term Poetaz means the bunch-flowering type, producing from six to twelve flowers per stem, and in all cases deliciously fragrant.

IMPERATOR. (Trumpet). This lovely, graceful Daffodil is considered one of the finest varieties. Perianth and cup purest white. **\$2.25 per doz.; \$16.00 per 100.**

LADY DIANA MANNERS. (Barri). Outstanding among the new red Daffodils, with a large creamy white perianth and orange-red cup. **40c each; \$4.00 per doz.**

MARY COPELAND. Double, a beautiful novelty of the new semi-double type, and termed the most striking new double. The longer petals are pure creamy white with a golden ray down the center, interspersed with shorter petals of lemon and brilliant orange, giving a 3-color effect. **\$1.20 each; \$12.00 per doz.**

RED CROSS. (Incomparabilis). A famous new variety, extra large and a strong grower, producing a flat primrose-yellow perianth and a deep yellow cup, densely frilled deep orange, substantial and long lasting and fine both in the garden and for exhibition. **60c each; \$6.00 per doz.**

TWINK. A double of the semi-full type, with alternating petals of soft primrose and clear orange and so arranged to give the flower a most attractive appearance, very free flowering and hardy. **35c each; \$3.50 per doz.**

XENOPHON. (Poetaz or Bunch-flowering). Producing large flowers of deep yellow and large orange cup, free flowering and delightfully fragrant. **75c each; \$7.50 per doz.**

Fragrant HYACINTHS

For Garden Planting or Forcing

Hyacinths planted in pots bring pleasure for winter days, and for bedding purposes they are unsurpassed. They provide the much needed shades of blue, white, yellow, pink, red, and scarlet, added to their most pleasant fragrance.

We consider these varieties the best obtainable.

Bismarck. Extra broad spike of sky-blue; also fine for early forcing. . . . \$1.40 \$10.50

City of Haarlem. Golden yellow, the purest and finest yellow Hyacinth 1.40 10.50

Duchess of Westminster. Its large, purplish blue bells have white centers and an agreeable fragrance . . . 1.40 10.50

King of the Blues. Dark blue, splendid large truss; good for late forcing and bedding. 1.40 10.50

Lady Derby. A beautiful clear rose-pink; early and fine for forcing and bedding. 1.40 10.50

La Victoire. Shiny carmine-red with well-filled spikes 1.40 10.50

L' Innocence. The most satisfactory all-round pure white; early forcer. 1.40 10.50

Lord Balfour. A beautiful large truss of violet shade 1.40 10.50

Marconi. Bright deep rose with broad trusses; a good forcer but particularly fine outdoors. 1.40 10.50

Perle Brilliant. Clear light porcelain-blue; forces medium late; splendid for bedding . . . 1.40 10.50

Pink Pearl. Absolutely the finest of the new deep rose shades; beautiful show variety 1.55 12.00

DAFFODILS for NATURALIZING

Suitable for woodland planting, cutting or garden display.

Practically any soil has been found suitable and they are grown equally well in the open as among trees and in woodland.

Containing a mixture of Large Trumpets, Leedsi, Barri, and Poeticus types, making a mixture that cannot be beaten for value and worth much more than we charge for them. Plant at least 8 inches deep, but avoid places where water may collect at any time, as they like drainage.

Try to plant them before October 15th or shortly thereafter, but place your order early as the demand is increasing for these bulbs at this special low price we have adopted, and we cannot take orders for less than 100 bulbs.

Miniature FLOWERING BULBS FOR THE ROCK GARDEN

ERANTHIS

(Winter Aconite)

Early in spring the golden yellow Buttercup-like flowers look charming, resting on an emerald-green cushion of leaves forming a striking contrast to the Snowdrops and Scillas. The foliage remains long after the flowers. Especially valuable in moist situations under trees and in the rock garden. Height 6 inches. 50c per doz.; \$3.50 per 100.

Eranthis

Scilla Sibirica

FRITILLARIA MELEAGRIS

Dwarf spring flowering plants bearing large bell-shaped flowers of various colors, yellow, white, black, purple, striped and splashed. They are invaluable for pot culture and when grown in large groups in the garden, require a dry situation. Height 10 inches. 50c per doz.; \$3.50 per 100.

CHIONODOXA

(Glory-of-the-Snow)

An early-flowering spring bulb for borders or rockery. Produces flower spikes bearing 10 to 15 Scilla-like flowers. Perfectly hardy and should be planted close together for effect. Height 7 inches.

LUCILIAE. Deep blue with a white center. 45c per doz.; \$3.00 per 100.

SNOWDROPS

(Galanthus)

Everybody knows the Snowdrops, with their little white bells coming through the snow very early in the spring. Especially attractive if planted with Scilla. Height 5 inches. 50c per doz.; \$3.50 per 100.

Fritillaria

Scilla Sibirica

MUSCARI

(Grape Hyacinth)

The foliage of this plant is very similar to that of Scilla but the flowers are of entirely different form—grape-like clusters closely set, and are wonderful cut flowers, splendid for naturalizing. Height 15 inches.

Fall Blooming German Iris

We take great pleasure in offering a list of the finest fall bloomers in cultivation. While best results are secured with these Irises below the Mason-Dixon Line, by a little care we have obtained excellent fall bloom in Michigan. Some of the varieties listed not only bloom profusely early in spring, but under favorable conditions also produce crop after crop of flowers for more than 100 days in late summer and fall. There are as yet but comparatively few of these flowers in existence and the demand has been so great that we, as well as the few other growers who have stocks of fall bloomers, could fill only a small proportion of the orders received last year. Please order early.

	Each
AUTUMN KING. 32 inches. A vigorous blue-purple bicolor which should be in every Iris collection.....	\$0.15
AUTUMN KING, Jr. 28 inches. A free-blooming purple bicolor similar to Autumn King, but blooms more profusely60
AUTUMN QUEEN. 26 inches. A beautiful fall blooming white which should be planted with Autumn King. Both of these varieties are now low in price and every Iris fan may have the thrill of seeing them bloom in the fall until heavy frosts come.	.25
ELEANOR ROOSEVELT. 26 inches. A gold medal winner which, under favorable conditions, has bloomed over a month in spring and three months in fall. A fluorite-purple self with red F. Perhaps the best fall bloomer thus far produced.35
JEAN SIRET. 15 inches. This yellow variety blooms not only in the spring and fall, but under good conditions, almost all summer as well. A reliable fall bloomer almost anywhere.....	.25
PEGGY BABBINGTON. 28 inches. A rich canary-yellow flower. Very fine.25
SEPTEMBER SKIES. 16 inches. A purple-red self which blooms not only in the spring and fall, but in the South blossoms in the summer also20

English IRIS

In a fine mixture of colors. 80c per doz.; \$5.75 per 100.

This magnificent mixture of bulbous English Iris has been developed at our own nurseries, and contains all the choicest varieties which can possibly be had in these fine Iris. The English Iris are a bulbous Iris which bloom in our latitude about the early part of July, and come after all other Iris are through blooming. They should be planted as soon after the beginning of September as possible for best results. They prefer the more moist and heavier soils, and should have good drainage. The blooms of the English Iris are considered to be the finest of any in the Iris class, and each individual bloom is strikingly beautiful, and as cut flowers they are unsurpassed. For those who prefer named varieties we are listing as follows:

New COLCHICUM

We are offering this year, for the first time, a complete listing of the newest varieties of this interesting novelty. The flowers of this new type are immense, much larger than those of the *Autumnale* class. The blooming period is during the months of September and October. They produce very large blossoms, resembling in their shape the well-known *Crocus*. The double varieties produce blossoms which are, in many instances, more than 6 inches across. The foliage, however, appears early in the spring, and dies down during the month of June. The bulbs should be planted during the month of

August for outside blooming. They may also be kept indoors where they will bloom in a window, without earth or water, and after blooming the bulbs may be planted outdoors, without suffering in the least.

Hardy PERENNIAL Plants

The following list of Perennials will give you a great display of flowers from early spring to late fall.

AQUILEGIA (Columbine)

Dainty; showy and desirable as cut flowers, available for Memorial Day. Bloom in early spring into July; preferring partial shade. Dobbie's Imperial Hybrids. A recent English triumph following many years of crossing and selection; notable for size and sturdiness, long spurs, and the most extensive range of strong colors. 3 for 75c; \$2.25 per doz.

ARTEMISIA, SILVER KING

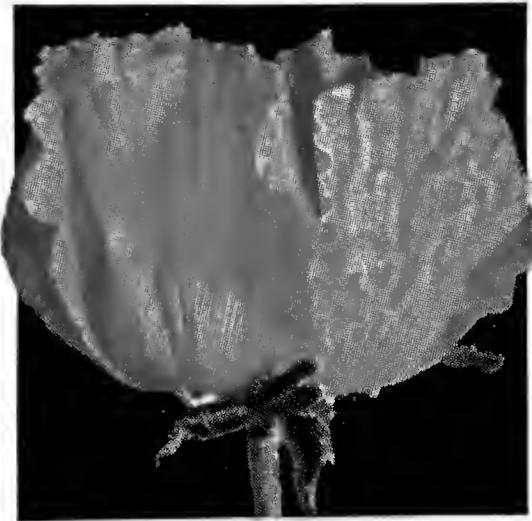

3 feet. A striking plant with frosted silvery white foliage. Beautiful for setting off bouquets or floral pieces and especially effective in the garden. 3 for 75c; \$2.25 per doz.

SHASTA DAISY

The pure white flowers with yellow centers are 3 to 4 inches in diameter, with waxy petals mostly broad and flat. They bloom the entire season and furnish an unfailing supply of cut flowers, besides being a conspicuous and popular white border plant. Hardy perennial. 1½ to 2 feet. 3 for 75c; \$2.25 per doz.

COREOPSIS

LANCEOLATA GRANDIFLORA. Beautiful hardy perennial; 15 to 18 inches, producing its golden yellow flowers in great profusion. 3 for 75c; \$2.25 per doz.

Nature's Way to a Productive Soil

Plants are living, growing things. Like everything else that lives, they need a congenial environment. For plants, this means a favorable climate, and more important still, a correct soil. Soil is made up of two kinds of material: one is mineral or inorganic; the other is vegetable or organic. Both are essential as sources of plant food; but the organic material, generally called humus, plays by far the most important part. Peat Moss is the most desirable type of humus that is known.

Superior Brand Peat Moss gives the soil a loose, soft texture that absorbs warmth and energy from the sun. It takes up surplus available plant food and gradually releases it as the plants need it. Besides, the Peat aids in the growing of certain bacterial organisms essential to the plant's activity.

Superior Brand Peat Moss results from the partial, natural decay of great deposits of the sedge Moss laid down ages ago in the bogs of Michigan. It is pure vegetable matter, free from weed seeds and excessive woody tissues, disease spores and impurities. It improves soils that are too light and sandy, giving them body and coherence and to heavy soils it gives life and porousness. As it has a loose, spongy texture it takes up from ten to fifteen times its own weight in water. By holding the moisture longer, Superior Brand Peat Moss tends to keep down the water bills even while it is growing more lovely gardens.

Superior Brand Peat Moss is excellent as a mulch. A layer of the loose, fluffy material on the top of the ground will greatly check evaporation. Applied from one to five inches deep it conserves soil moisture and prevents erosion. In winter it protects plant roots from severe cold.

PRICES: Superior Brand Peat Moss is sold in bags, each containing two bushels. We will ship by freight, charges collect, unless you instruct otherwise. Shipping weight per bag of two bushels about 50 pounds. Price of 2 bushels (1 bag), 99c; 4 bushels (2 bags), \$1.77; 6 bushels (3 bags), \$2.57; 8 bushels (4 bags), \$3.37. Larger quantities for lawns and large plantings, \$6.50 per cubic yard. (1 cubic yard equals 22 bushels).

2-WAY MONEY SAVING: Two bags (about 100 lbs.) can be shipped as cheaply as one bag, since freight companies make no reduction under 100 pounds; thus you save on freight when two bags are ordered. And when you order two bags you pay only 78c for the extra bag. Order two or more bags, and save money.

Tulip City Brand Raw Bone Meal

Ideal for lawns, shrubbery and all bulb stock. This is a safe fertilizer, and quicker acting than the steamed Bone Meal. We have used this brand for years on our own bulb fields. Tulips or other bulbs require from one to two pounds for one hundred bulbs. Available in: 25-lb. bags at \$1.35; 50-lb. bags at \$2.50; 100-lb. bags at \$4.00, not prepaid.

Steamed Bone Meal

This brand is slower acting than the raw bone meal. Ideal for lawns if applied in the fall, as well as for all bulb stock. To be used at the rate of from two to three pounds for one hundred bulbs. In 100-lb. bags only, at \$2.95 a bag, not prepaid.
